PROFESSIONAL SUMMARY

Fourth-year Computer Science student at the Faculty of Computer Science and Artificial Intelligence, with strong hands-on experience in Flutter mobile development. Experienced in consuming RESTful APIs, Firebase services, and state management solutions. Seeking an internship or junior role to contribute to real-world mobile applications while continuing to grow technically and professionally.

EDUCATION

Banha University — Faculty of Computer Science and Artificial Intelligence

Department: Computer Science

Expected Graduation: 2026 | GPA: 3.35

TECHNICAL SKILLS

- Flutter & Dart
- RESTful APIs Integration
- Firebase (Authentication, Firestore, Realtime Database)
- State Management (Provider, Bloc)
- Object-Oriented Programming (OOP)
- Problem Solving
- C++, Java, Python
- HTML, CSS, Bootstrap

PROJECTS

Hungry App (Flutter)

- Developed a food ordering mobile application using Flutter.
- Integrated RESTful APIs to fetch and display meals dynamically.
- Implemented responsive UI and clean architecture principles.

E-Commerce App for Electronic Devices (Flutter)

- Built a cross-platform e-commerce application focused on electronic devices.
- Implemented product listing, categories, search, and filtering features.
- Integrated Firebase Authentication and user profiles.
- Developed a shopping cart with real-time updates.
- Created an admin panel for inventory management.

Watch Store App (Flutter, Firebase, Bloc)

- Developed a mobile application for showcasing and selling watches.
- Implemented filtering and sorting by brand and price.
- Used Firebase for authentication and data storage.
- Managed application state using the Bloc pattern.

VOLUNTEER EXPERIENCE

Fanoni App — Flutter Developer (Volunteer)

- Contributed to developing a social media-style mobile application for artists.
- Implemented features allowing users to upload artwork and interact with posts.
- Built like and comment system similar to Facebook social interactions.
- Collaborated with a team to improve UI/UX and application performance.
